Seminar

- For many years Amtest has successfully cooperated with manufacturers of electronic products within our region, so we decided to upgrade our cooperation with free seminar. Topics at the upcoming seminar on September 27th 2016:
 - Automation, laser marking and depaneling (ASYS)
 - Solder paste printing (EKRA)
 - Coating and dispensing machines (PVA)

All topics will focus on increasing productivity and profitability through production quality increase.

All lectures will be held in English.

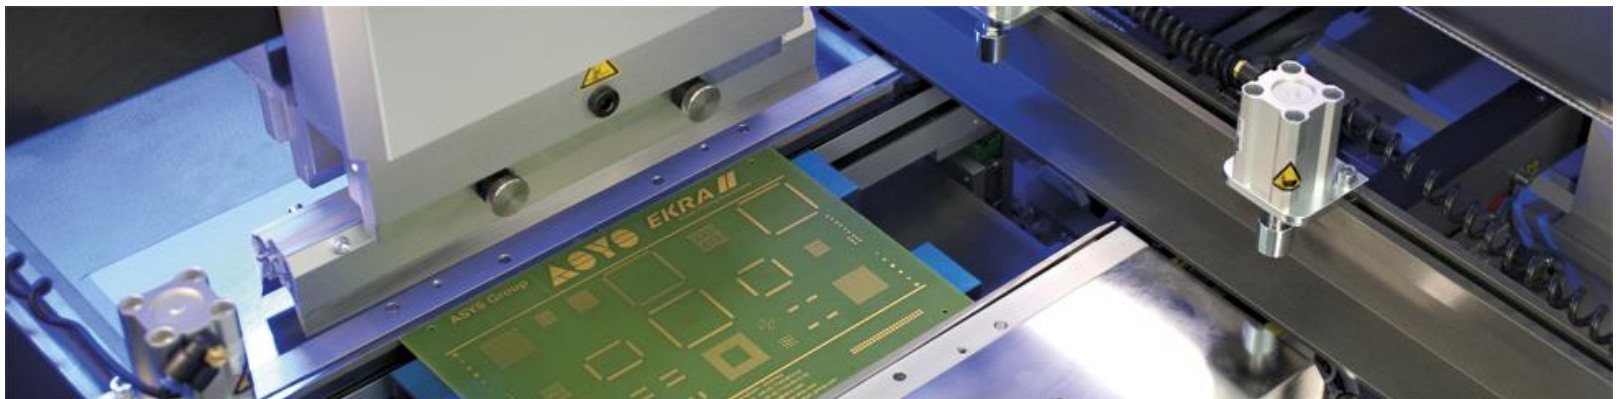

Speakers

- Representative from ASYS, g. Swen Nothjunge, Product Manager Insignum
- Representative from EKRA, g. Adrian Semaca, Regional Sales Manager
- Representative from EKRA, g. Oliver Stetter, Application Serio
- Representative from PVA, Mr. Pieter van der Vorst, General Manager PVA Europe

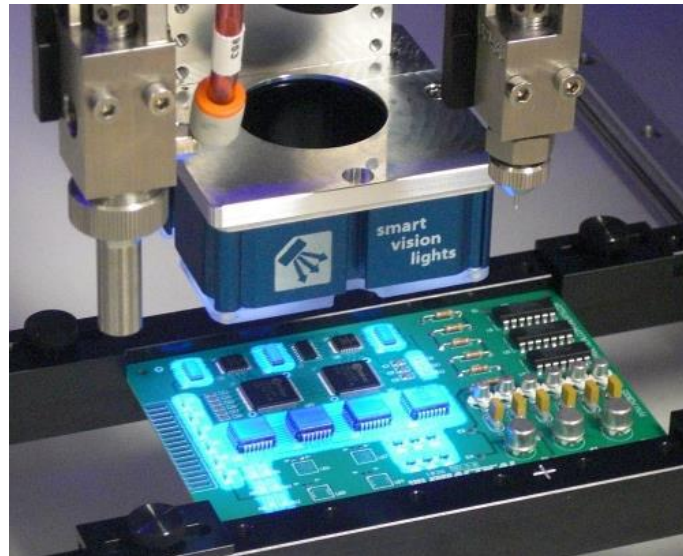

- **ASYS Group** is a leading manufacturer of equipment for automatization within SMT process. In addition to automation, ASYS is a specialized manufacturer of process equipment for laser marking and depaneling of printed circuit boards.
- More about ASYS can be found on the following link: <http://www.asys.de/agweb/en/>

- **EKRA** is a part of ASYS Group specialized in manufacturing SMT and hybrid printers. With a large selection of upgrade packages, the printer can be quickly customized for individual needs.
- More about EKRA can be found on the following link: <http://www.asys.de/agweb/en/products-solutions/ekra-screen-and-stencil-printing>

- **PVA** is a global manufacturer of conformal coating systems, innovative fluid dispensing solutions and precision valve technology.
- More about PVA can be found on the following link: <http://pva.net/>

- The following ASYS products will be introduced on the seminar:

ASYS Insignum 4000 CO₂ Laser

- The following EKRA products will be introduced on the seminar:

EKRA Serio 4000

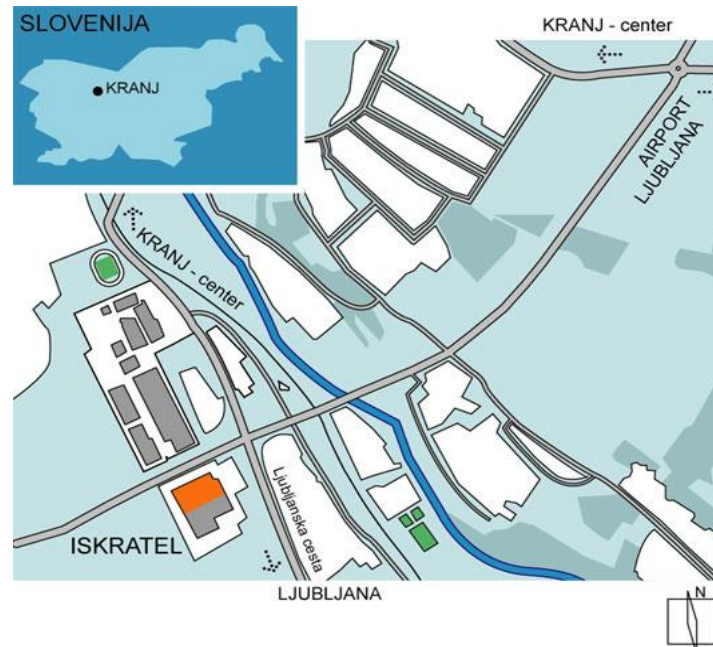

EKRA S10 Select

- The following PVA products will be introduced on the seminar:

PVA Delta 8

- **ISKRATEL**
Ljubljanska cesta 24a
4000 Kranj
Slovenija
- Classroom T5 has its own entrance in basement floor of ISKRATEL headquarters (left from the glass building)
- Free parking is ensured on a parking place in front of ISKRATEL factory

- Due to limited number of seats, please confirm your arrival via e-mail or phone number below:
