

# NEW in Amtest portfolio

## ELMA ultrasonic equipment

- Great tradition since 1848
- Strong R&D department
- Inovative approach
- Wide product range

### Table top units – Elmasonic S series

- Working frequency: 37 kHz
- Available in 13 different sizes:
  - From 0,8 up to 90 liters
- Heating: Up to 80 °C
- Electronic time and heating control

### Industrial floor mounted ultrasonic units – X tra basic series

- Multi-frequency technology: 25 / 45 kHz
  - 25 kHz - strong contamination, robust parts
  - 45 kHz - normal contamination, softer surface
- Available in 6 different sizes:
  - From 30 up to 250 liters
- Robust, easy to operate

### Multi-frequency unit for modular cleaning systems – X tra PRO series

- Two multi-frequency pairs:
  - 25/45 kHz
  - 35/130 kHz
- Available in 5 different sizes
- Sweep, Pulse and Degas mode

### Modular cleaning systems – X tra PRO Line series

- From the single unit device up to the completely automatic cleaning system
- Made of X tra PRO units
- Includes washing, rinsing and drying
- Switchable frequencies, power control
- Graphic control system
