**Henkel seminar**

**30.09.2014 Kranj**

- Introduction
- Information about:
  - Henkel
- Schedule
- Location
- Confirmation of arrival

## Seminar

- For many years now Amtest has successfully cooperated with manufacturers of electronic products within our region, so we decided to improve our cooperation with a free seminar. Subjects at the upcoming seminar on September 30<sup>th</sup> will be:
  - Thermal interface materials (Henkel)
  - Low Pressure Molding (Henkel)
  - Potting (Henkel)
  - Conformal coating (Henkel)

All topics will focus on solving problems that arise in production, storage and rework.

## Lecturers

- Henkel representative, Mr. David Chua, Regional Account Manager
- Henkel representative, Mr. Josef Schneider, Sales Manager - Central Eastern Europe & Middle East & Africa (CEEMEA)
- Henkel representative, Mr. Giuseppe Caramella, Technical Service Engineer
- Henkel representative, Ms. Hilde Goossens, Technical Customer Service Engineer

- Henkel is the world's leading and most progressive provider of qualified materials for semiconductor packaging, printed circuit board (PCB) assembly and advanced soldering solutions. The breadth of Henkel's product portfolio delivers cost-effective solutions for any manufacturing challenge.
- There are hundreds of different ways in which Henkel electronic adhesives can enhance the quality and efficiency of electronic components. Focused solutions backed by industry specific collateral and the best in-class support available have resulted in long-term relationships with satisfied customers.
- You can find out more about Henkel here:
